

October 27, 1998

Dear Wand Enterprises,

We recently had the pleasure of hosting Carrie Shubert, the world-renowned psychic, on October 16th. She gave an hour long performance of her amazing psychic powers and the power of clairvoyance. She answered questions from the audience that left people in shock with how accurate her visions and descriptions were. She knew things about deceased loved ones of the audience that there was no way she could have known unless she was a true psychic.

Here it is more than a week after her performance, and we are still getting phone calls from amazed audience members wanting to get in contact with her to find out more about their futures.

Carrie was a pleasure to work with and I would highly recommend her to any school looking for an act to amaze their audience and leave them begging for more.

Sincerely,

Kristine Shirvis
